

Australian Dental Association Seal of Approval

Review

Australian Dental Association undertakes review of Seal of Approval Program conditions.

After many years of conducting the ADA Seal of Approval Program, the ADA has felt it appropriate to review its Seal of Approval conditions.

Because of this, the ADA has decided to not take any further applications for products wishing to obtain the ADA Seal of Approval.

Further information in relation to the progress of this review will be posted on to the ADA website from time to time.

All products currently holding the Seal of Approval will continue to hold the ADA's Seal of Approval until at least 30 June 2010.
