### Patient Education Brochures

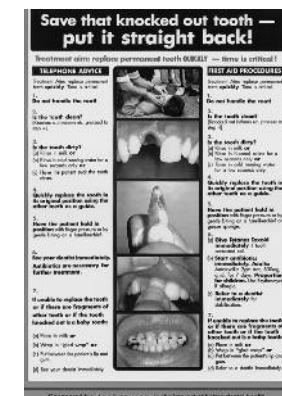

*Explains endodontic therapy and why the dentist recommends this treatment.*

*Explains, in simple terms, the emergency treatment for an avulsed tooth.*

### Avulsed Tooth Management Poster

Australian Society of Endodontology, Inc.

c/o Dr Phillippe O. Zimet

77 Stud Road,

Dandenong Victoria 3175 Australia

Tel: 61 3 9794 9677, Fax: 61 3 9794 0558

## Poster

This poster on the management of the avulsed tooth is designed to provide concise guidelines for hospital casualty departments, schools, sporting clubs and the like. The Society is grateful to Colgate Palmolive for its partial sponsorship and assistance in distributing some 5,000 posters throughout Australia.

The poster emphasises that time is the most critical factor for the successful replantation of a tooth. If replanted within the first fifteen minutes, the chances for successful implantation are significantly improved. The poster also stresses the proper management of the root surface and the necessity for immediate examination by a dentist after such traumatic injury.

Please help spread the message – buy a poster for your municipal swimming pool, football club, etc. and help save someone's tooth.
