The Dental Student/Trebitsch Research Grant is intended for undergraduate dental students as a summer research project. The Grant is intended for individual students, supported and guided in oversight by their supervisor(s). Applications will be considered in each School by a local committee selected by the relevant Dental School. Two applications are permitted from each Dental School for the Dental Student Grant and one application from each school for the Trebitsch. (Whilst each dental school can submit two dental student grants, only one Trebitsch grant will be awarded nationally.) Final selection of the Dental Students/Trebitsch Research Grants will be made by the Foundation's Research Advisory Committee.

Applications for Dental Student or Trebitsch applications must be submitted on the current “Application Form for Dental Student Grant Trebitsch Grant” form which may be downloaded from the ADRF Website dentalresearch.org.au. Forms will also be available from the Office of the Head/Dean of each Dental School. All supporting documentation such as the full academic record and the letter of endorsement of the candidate by supervisor should be submitted electronically to the ADRF by emailing adrf@dentalresearch.org.au.

Submissions must be received by 31 March each year. (Note this date has changed from previous years to align with all other ADRF Research Grants and Awards). Applications must contain all necessary information to allow them to be considered by the Research Advisory Committee and assessors without reference back to the applicant(s). Any omissions will deem the application non-compliant. They should be expressed in clear language and accurately typed. Applicants should pay careful attention to the preparation of their submissions and should check and proof-read them before forwarding them to the Foundation.

Please also refer to the Dental Student Research Grant Conditions and the Trebitsch Research Grant Conditions for further information.

Please contact the ADRF Services Officer adrf@dentalresearch.org.au should you need to check your eligibility or if you require further clarification.
